

**Anton Paar**

Anton Paar Certified Service.

Working for You.

Working for You.

# How Anton Paar Certified Service works for you

## Engineers with the right skills and qualifications

All Anton Paar service engineers are trained and authorized by Anton Paar – you can be sure your instrument is in good hands.

## Keep your results on-spec

Regular checks, calibrations and adjustments ensure that your instrument continues to deliver measuring results which meet specifications and standards.

## Certified test equipment

Anton Paar service engineers only use certified test equipment to check and adjust your instrument, so you can be sure of the highest level of accuracy.

## Complete documentation

You receive a service and maintenance record, a highly useful document for your audits. Rest assured that your instrument has been checked according to the highest standards.

## Your maintenance budgets are now easy to plan

Purchasing an Anton Paar Certified Service program means you can plan and approve one single expense, giving you peace of mind regardless of what happens that year.

## Electrical safety check for complete certainty

Your Anton Paar service engineer carries out a safety check to ensure that the electrical safety devices in the instrument are in full working order.

# Your Anton Paar Certified Service programs

Anton Paar offers several service programs designed to meet your needs. From the recommended preventive maintenance programs to repair coverage and emergency service, Anton Paar will ensure you get the most out of your investment.
