

General Terms of Purchase

Anton Paar ProveTec GmbH, Ludwig-Erhard-Ring 15, 15827 Blankenfelde-Mahlow, Germany

1 Scope of application

- 1.1 Unless expressly agreed otherwise in writing, the following terms and conditions ("Terms") shall exclusively govern all deliveries, services and offers of our suppliers. The supplier shall be deemed to have accepted these Terms as amended from time to time and accessible at www.anton-paar.com, upon performance of our order (first delivery), and agrees that all subsequent orders shall be exclusively governed by these Terms. Any general terms and conditions of our suppliers or third parties shall not apply, even if we do not expressly object to their applicability in a specific case. A reference to correspondence or a document that contains or references general terms and conditions of the supplier or a third party, shall not constitute the consent to the applicability of such terms and conditions. Deviating or additional terms and conditions of the supplier shall only be binding, if they are expressly accepted in writing. If, in exceptional cases, deviating agreements are duly executed in writing, they shall only apply to the respective transaction. Oral agreements are only binding if confirmed in writing.

2 Purchase Orders

- 2.1 Purchase orders, as well as changes and additions thereto, shall only be valid if issued or confirmed by us in writing. The acceptance of our order shall be confirmed to us without delay in writing. We reserve the right to cancel an order placed by us, should we not receive a proper order acknowledgement within 5 days, after the purchase order was issued. Such cancellation shall be sufficient, if sent prior to our receipt of the order acknowledgement.
- 2.2 Where the order acknowledgement deviates from the purchase order, the supplier shall explicitly indicate the respective deviations. Such a deviation shall only be binding, if expressly agreed by us in writing. The unconditional acceptance of the delivered goods shall not be considered as consent.
- 2.3 The supplier may not subcontract or assign our purchase orders without our written consent.

3 Delivery and passage of risk

- 3.1 Specified delivery times are binding. In the event of a delay by the supplier, we expressly reserve the right to charge a penalty of 3 % per commenced week of delay (starting on the Monday following the week of delivery), up to a maximum of 15 % of the total order volume, and to demand compensation for all losses and damages resulting from the delay.
- 3.2 In the event of delays, the supplier shall take all economically justifiable measures as part of its duty to minimize damages.
- 3.3 In the case of a contract for work or services, the supplier shall perform the work by the agreed date. The contract shall be deemed fulfilled when the work has been accepted in full by Anton Paar in writing. The supplier shall perform its contractual obligations free from instructions, with the diligence of a prudent businessman, at its own economic and legal risk and using its own resources and is personally responsible for achieving the agreed objectives. In this sense, the supplier is authorized and obliged to carry out the accepted order independently and at its own discretion. If he is unable to do so, he shall appoint a suitable replacement person, for whose work he shall be liable in accordance with the statutory provisions.
- 3.4 In the event of a delay in delivery for which we are not responsible, we shall be entitled to withdraw from the contract with immediate effect after the expiry of 14 days without setting a grace period. If a fixed date has not been met, we may demand fulfillment of the contract within 14 days.
- 3.5 Partial deliveries or services and advance deliveries are subject to our written approval. Until the agreed delivery date, we only assume the liability of a depository.
- 3.6 Unless expressly agreed otherwise in writing, deliveries shall be made DDP (Incoterms 2020) to the named place of destination. Delivery documents and packaging shall be made according to the relevant standards and in order to ensure delivery free of damage and efficient internal handling. The place of performance for the delivery shall be the destination specified by us.

- 3.7 The supplier shall be liable for any late delivery and any transport damage.
- 3.8 Approval of submitted samples or specimens or acceptance of (delayed) deliveries or services, their use or payments made shall neither constitute acceptance nor a waiver of any rights we may have. Confirmations of receipt of goods issued by us shall not be deemed to be statements on final acceptance of the delivered goods.
- 3.9 The goods shall be accepted following the inspection for completeness and any patent defects within a reasonable period of time after receipt of the goods. If during spot-checks parts of the delivery are found to be not in compliance with our requirements or the quality customary in trade, we reserve the right to reject the whole shipment. However, the duty to inspection and objection according to Section 377 of the German Commercial Code does not apply.
- 3.10 If we are prevented from accepting the deliveries through no fault of our own, we shall be entitled to agree a suitable alternative date and the supplier shall be obliged to store the goods at his own risk and free of charge for us.

4 Prices and payment

- 4.1 The prices stated in the purchase order shall be fixed.
- 4.2 The price shall include packaging, delivery and transport to the shipping address indicated in the purchase order.
- 4.3 Payment shall be made after receipt of the goods and invoice in accordance with the contract within 10 days with a 2% cash discount or within 30 days without deduction.
- 4.4 Payment shall neither constitute an acceptance of the delivery or service nor a waiver of any rights we might have. Any bank charges of the receiving bank shall be borne by the supplier.
- 4.5 In the case of a defect, we may withhold payment until the proper remedy of such defect. We may in any case offset payment with any counterclaims.

5 Invoice

- 5.1 The invoice, stating all purchase order data, shall be sent to us immediately upon delivery of the goods or full provision of the service. The invoice shall be worded in such a way that it can be easily verified and compared to the respective purchase order. Invoices on labor shall include time sheets that have been confirmed by us.
- 5.2 We reserve the right to return invoices which are not in compliance with our requirements, in particular with respect to purchase order data or statutory VAT regulations, without having processed them. In that case, the invoice shall be deemed not submitted. The supplier may not offset its own claims against our claims, or assign or cede its claims to a third party.

6 Cancellation

- 6.1 We may rescind the contract in whole or in part even without fault on the part of the supplier. In such a case, the supplier shall only be entitled to invoice all services provably rendered until the date of termination of the contract, but in no event any lost profit. After rescission the supplier shall be obliged to use all efforts to minimize the costs.
- 6.2 If the supplier discontinues its payments or if bankruptcy proceedings or court or out-of court composition proceedings are opened over the supplier's assets, we may rescind the contract notwithstanding any other rights we may have.

7 Quality and documentation

- 7.1 The supplier shall constantly keep the quality of its products to be delivered to us according to state-of-the-art standards and keep us informed about possibilities of improvement and technical modification.
- 7.2 The supplier shall maintain a suitable quality assurance system in accordance with the latest state of the art and the applicable statutory provisions. The supplier shall make records of the quality assurance system available to us upon request. The supplier hereby agrees to audits to assess the effectiveness of its quality assurance system by us and, if necessary, with the participation of our customer.

We are entitled to use this documentation without restriction and, in particular, to integrate it into training and sales documents. - 8.1 For the period of 24 months from the final acceptance of the delivery or performance, the supplier warrants that the goods or services

- 8.2 During this period, the supplier shall, at his own expense and at our discretion, either remedy any defects immediately or make a new delivery or performance free of defects within the set period. We reserve the right to immediately assert the right to rescission or price reduction instead of improvement and replacement. We shall be reimbursed for inspection costs if the inspection has revealed defects.
- 8.3 In urgent cases or if the supplier is in delay with the remedy of defects, we reserve the right to stock up elsewhere at the supplier's cost or to remedy or have remedied the defects without prior notice and notwithstanding our additional rights and remedies. The supplier shall fully reimburse the costs of such substitute performance.
- 8.4 The warranty period shall be suspended for the duration of the work until successful remedy of the defect. For replaced or repaired parts, the warranty period shall again be 24 months from the replacement or repair. We shall be free to choose the place of performance for the remedy of defects.

- 8.5 For hidden defects, the warranty period shall only commence from the time of discovery.

- 8.6 The supplier agrees to pass down any additional warranties from manufacturers or sub suppliers.

- 8.7 All claims shall not come under the statute of limitations before the lapse of three years from the notification of the defect. Additional statutory provisions remain unaffected.

Should we have to carry out a recall campaign for third parties due to a defect of a good delivered by the supplier, the supplier shall bear any and all costs relating to that recall campaign. The supplier agrees to keep such risks sufficiently insured and to provide us with appropriate evidence thereof upon request. For a period of eleven years from the last delivery, the supplier will declare the respective manufacturer, importer or upstream supplier of the delivered goods immediately, in no event later than within two weeks, upon our request, and make available to us any evidence and information, including but not limited to documents regarding the manufacturing, production, batches and delivery dates, necessary to defend product liability claims of third parties.

- 11.3 The supplier warrants the unrestricted use of the delivered goods and shall indemnify, defend and hold us harmless in all cases of disputes under patent law, copyright law, trademark law and registered design law arising out of the delivered goods and/or services. In the event any claim should be made against us at any time, that by virtue of its use or resale of the goods or services or otherwise, we are infringing or contributing to the infringement of any actual or alleged industrial property rights, supplier shall at its option and expense, (i) either procure within 30 days for us the

right to continue using said goods, or (ii) modify same so the goods and services become non-infringing, or (iii) replace the goods with non-infringing goods. 12 Spare parts

- 12.1 The supplier shall prepare spare parts lists jointly with us, including prices and delivery times for such spare parts. 13 Special provisions for hardware and software

- 13.1 Hardware and software shall always constitute a unity, unless otherwise agreed in the purchase order. If the supplier supplies software that has not been developed specifically for us, the supplier grants us a transferable and non-exclusive right to use the software. Unless expressly agreed otherwise, the latest version of the source code of the software shall also be delivered. The supplier shall install the software. Following the installation, the supplier will hand over the source code and machine code and the respective documentation (contents and structure of the data carrier, program and dataflow plans, test methods, test programs, error treatment, user documentation etc.).
- 13.2 Software that is made specifically for us shall be deemed accepted, if the software has run in accordance with the agreed specifications during a free-of-charge test run for a period of at least four (4) weeks in a satisfactory manner and without error
