Begin your instrument journey with reliable setup and operational confidence.

Start-Up

Daily Operation

Fast Recovery

Long-Term Support

4 → **Service agreements and coverage**

Don't treat service as a series of random tasks. Combine our lifecycle services into one structured strategy that keeps your instrument running reliably over the long term.

5 → **Repairs and original parts**

Restore instrument functionality quickly and reduce downtime with expert repairs and original spare parts to support reliable long-term performance.

3 → **Calibration**
→ **ISO 17025 calibration**
→ **Analytical instrument qualification**

Achieve accurate, traceable, and compliant results by ensuring your instruments are always properly calibrated and qualified.

2 → **Preventive maintenance**
→ **Performance verification**

Maintain stable performance and reduce operational risk.

Accuracy and Compliance

Anton Paar's Full Range of Services

- Service agreements and coverage**
Comprehensive service packages for cost control, risk minimization, and long-term operational reliability.
- Warranties and extended warranties**
Protect your investment with warranty options that help reduce unexpected repair costs during operation.
- Preventive maintenance**
Prevent failures, stabilize performance, and extend the lifetime of your instruments.
- Performance verification**
Confirm that your instrument performs within defined specifications, giving you absolute confidence in your results.
- Calibration**
Ensure traceable, transparent measurement results and support compliance with quality and audit requirements.
- ISO 17025 calibration**
Obtain traceable calibration for maximum audit confidence and international recognition.
- Analytical instrument qualification**
Achieve compliance by keeping instruments qualified and fit for their intended use throughout the lifecycle.
- Installation and relocation**
Benefit from professional setup for a reliable start and stable performance from day one.
- User training**
Empower your team to operate instruments efficiently, reduce errors, and maximize value.
- Repairs and spare parts**
Maximize uptime with fast, precise repairs by factory-trained experts and access to original spare parts.

We're not just in the business of making great instruments. We support you with great service throughout the entire lifecycle of your instrument, ensuring it delivers reliable results every day.

🔧 Your trusted partner

From installation through the entire instrument lifecycle, Anton Paar supports optimal performance at every stage. Proactive service and application expertise help ensure smooth operation and the full value of your instrument throughout its lifetime.

🛡️ Audit-ready compliance

Our audit-ready services follow a risk-based lifecycle approach, including instrument qualification and system validation. This reduces compliance risks, streamlines audit preparation, and ensures you consistently meet regulatory requirements.

📍 Fast local support

When issues arise, fast and reliable support helps restore operations quickly. With local experts and a service network in more than 110 countries, Anton Paar provides rapid response wherever you operate.
