

MEASUREMENT TECHNOLOGY

Density and concentration measurement | Viscometry | Polarimetry and Refractometry
Determination of petroleum properties | Rheometry | Particle and surface
characterization | Atomic force microscopy | Mechanical surface characterization
Analytical and synthetic chemistry | X-ray structure analysis | Raman spectroscopy
and Raman microscopy | Process instrumentation | Automation and robotics

SPECIAL FIELDS

Partner for developing & manufacturing high-quality mechanical and electronic parts,
components and complete devices | Revolutionary training and analysis systems for
professional sports
