

## Anton Paar Mobile Lab Specifications

Time for assembly/dismantling: 90 minutes

License Plate: LAB2YOU

State of registration: Virginia

Gross Vehicle weight: 22,000 lbs

Vehicle type: 2017 Winnebago, model WFJ33S Commercial Shell

### Electrical:

- The Mobile Lab is equipped with a generator sufficient to facilitate complete operation of all systems on board. However, if access to electricity is available, this would be preferable.
- External current: 30 or 50 amps
- Plug connections: 50 amp shore power cord and plug, including 110V plug adapter, will be provided by Anton Paar.
- Distance to electrical power connection must not exceed 25 ft.

### Space Requirements:

Sufficient level ground or floor area  
(as per the diagram below)

Optimal footprint: 35 x 14 ft when  
installed (stairs & bump out)

Height restriction: 13 ft

Street parking is not possible

### Drivers Details:
